# WELCOME TO Canada's Musical Coast - Inverness County

Canada's Musical Coast is a string of beautiful communities and majestic coastline vistas bound together by musical traditions. The music culture here is written into the story...the very fabric of the coastline. During harsh winters and trying times, music and dance were neither indulgence or luxury, but rather survival. Music culture here is honest, authentic and shared directly from the heart – this is a coast shaped by music.

Inverness County comprises the entire western coastline of Cape Breton Island, and reaches inland as far as the beautiful Bras d'Or Lakes. Between these shorelines, the cultures, arts, languages and landscapes complement each other, extending an open invitation for visitors to experience any or all of western Cape Breton's offerings.

The Sunset Side of Cape Breton Island is your guide to the activities, culinary choices, places to rest and event information in Inverness County.

We are pleased to share these wonders of our place with you!

# PORT HASTINGS

## Port Hastings Museum

This season (mid-June to mid-October), the Port Hastings Museum, directly across from the Port Hastings Visitors Information Centre, will continue to host the Artisans Collective and Canso Causeway display and open house.

Visit the Port Hastings Museum and Archives at the entrance to Cape Breton Island overlooking the panoramic view of the Strait of Canso. The deep waters of the Strait have played a defining role in the lives of the residents of this part of Cape Breton and mainland Nova Scotia since the beginning. Hundreds of photographs, archival and genealogical records and other artifacts relating to the construction and impact of the Canso Causeway, the industries and lifestyle of the area which was settled in 1788 tell our story. There are several scale model replicas of vessels that sailed through these waters by well known model shipbuilder, Mark Boudreau. The Quilt and Craft Shop, located in the same building, provides an opportunity to enjoy handmade items by Cape Breton artisans: weaving, knitting, jewelry, quilted items and demos. Bus tours welcome. Visit the Ice Cream Barn and enjoy the picnic area. "Make us your first and last stop on Cape Breton Island."

### *Artisans Collective and Gift Shop*

If original handcrafted works by gifted Cape Bretoners are of interest, we encourage you to visit the Artisans Collective craft shop at the Port Hastings Museum. This seasonal gift shop has become a destination of choice for visitors looking to purchase quality handcrafted items. Some of the artisans are juried members of the Cape Breton Centre for Craft and Design.

## ANNUAL QUILT SHOW August 10<sup>th</sup> – 16<sup>th</sup>

The annual Quilt Show is being held from August 10<sup>th</sup> through to August 16<sup>th</sup> at St. David's Historic Church at the entrance to Cape Breton Island, Port Hastings. The quilt show and sale will be open from 10 am to 4 pm each day.

The event draws hundreds of visitors every year from across Canada, the US, and countries from around the globe including Switzerland, the Netherlands, and Germany. Many visitors return on an annual basis to view the displays or purchase quilts. Since the show's inception, we have displayed over 1,000 quilts in this beautiful church and have seen an increase in numbers of both visitors and local quilters who have submitted their works.

Hosted by St. David's Church, the quilt show and sale is one of the largest in Cape Breton and will feature over 100 quilts displayed on the pews in the church or hanging from the rafters. "Celebrating Quilting at the Causeway" has become one of our major fund-raisers. The church receives the proceeds from the donation jar at the entrance which goes towards the upkeep of the church. In addition, the quilters very generously give St. David's a percentage of the sale from each quilt sold. This event is a huge benefit to the church financially.

In addition to providing visitors with an amazing visual display and sale, the show offers quilters from Cape Breton Island and the area the opportunity to promote their craft, their quality

workmanship, and gives them an excellent venue to sell their items. Traditional and modern quilts, from baby size to king size, will be available in the church, while smaller items such as wall hangings, table runners, and placemats, will be for sale in the church hall. Strait area quilters will be demonstrating the art of quilting on a quilt that will be set up on a traditional wooden frame. Visitors will be able to watch the quilters, ask

questions, and learn the skill of quilting by taking a few stitches of their own. The finished quilt will be used as an additional fundraiser for the church.

The Quilt Show is hosted by the Ocean Waves Quilt Society of Cape Breton and Strait Area Quilters.

## ENJOY STROLLING THROUGH THE COMMUNITY WOODLAND TRAILS

After crossing the Canso Causeway continue through Port Hastings into Port Hawkesbury.

The trail system is directly off of route 4 (Reeves Street) at Grant's Pond on the left heading into town, approximately 4km from the causeway. Watch for the parking area and trail signage at the trail head.

In total there are

approximately 10km of trails that travel through mixed hardwood and softwood forests, over undulating terrain, through open areas and across numerous streams. The tread is a single track, natural duff surface with some areas scattered with roots and rocks. Sections of boardwalk and wooden bridges cross brooks and other wet areas, offering numerous scenic views. This forest type is habitat for a variety of wildlife. The softwood areas are

home to squirrels and small song birds, such as the nuthatch, chickadee and variety of finches, who flutter atop the forest crown. There are also signs of deer in the area.

Tree species here include balsam fir, red and white spruce, maple, birch and oak. In the spring you may also find mayflowers on sunny banks; Nova Scotia's provincial flower.

Accommodations and all amenities can be found in Port Hawkesbury and nearby Port Hastings.

# Port Hawkesbury Veterans Memorial Park a place to reflect, relax

For a touch of solemn solitude, and an opportunity to simply sit and relax, visit the Port Hawkesbury Veterans Memorial Park. While there are benches upon which to rest, the atmosphere is one where a person feels the weight of great sacrifice and the fullness of one's own gratitude.

Unveiled in 2013, the Veterans Memorial Park is the culmination of a community's dream of honouring its war heroes, living and dead.

The memorial itself is a stunning tribute to the courage of so many Canadians, particularly those who served from the town and surrounding counties. Its centrepiece is a large bronze Canadian maple leaf which enfolds several Armed Forces figures wearing the various uniforms from the wars in which Canada took part. A number of life-size statues represent soldiers, sailors, Air Force personnel and merchant marines. A military nurse holding a helmet from the First World War kneels by a grave in memory of the Unknown Soldier. It was created by Timothy B. Schmalz, a sculptor widely known for his memorial pieces.

The unveiling of this memorial was a moving experience for those in attendance, with none more moved than those veterans who were able to attend and take part in the ceremony.

If you decide to visit Veterans Memorial Park, to sit among the iconic images and more than 2000 names inscribed there, it will tell you something about the people among whom you are currently visiting, and may well remind you of those from your own home or homeland who have been equally selfless in their sacrifices.

The musicians will vary with each kitchen ceilidh. Admission is by donation.

# CREIGNISH

Starting June 15<sup>th</sup> the bi-weekly Celtic Jams will be held at the Creignish Community Hall. The popular sessions are held Thursday evenings with an invitation extended to residents and visitors to join in if they have an instrument or song to contribute, or to just sit back and enjoy the music. Average attendance has been roughly ten musicians including fiddlers, guitarists, pianists, pipers, as well as large, appreciative audiences.

### Ceilidhs every Sunday - Celtic Music Interpretive Centre

The Celtic Music Interpretive Centre operates year-round with Sunday afternoon (2-5 pm) ceilidhs. Each Sunday afternoon, some gifted Cape Breton fiddler has entertained local music enthusiasts through some bitter winter months, and these fiddlers will continue to entertain all comers this summer – admission \$8, children under 12 free.

# JUDIQUE

The village's annual summer festival, Judique on the Floor Days, evokes something of the reputation that Judique has enjoyed for generations for the strength and courage of its men. At dances in various community halls, the cry would often be heard, "Judique on the floor. Who's going to put her off?" It was a boast and a challenge, and in most cases (according to Judiquers anyway) nobody could put them off the dance floor.

While today's dances are of a kinder, gentler nature, the people of Judique enjoy evoking the past by naming their annual festival and its associated dances with that proud motto, Judique on the Floor.

## Judique's Celtic Cemetery Trail Hike

The Celtic Cemetery Trail hike is a testament to the pioneers that settled the area.

Located next to the Celtic Music Interpretive Centre is a beautiful hiking trail where you begin in present day and hike to the pioneer past.

The natural beauty of the trail system paired with the stillness and peacefulness of the cemetery is an experience that everyone should take in.

Celtic culture is thriving in this region. This exceptional trail system meanders along the coast and provides first-class trail experiences for bikers, hikers, runners, quadders, skiers, snowmobilers and horse-back riders.

The hiking trail is perfect for the young and old, for the two-legged as well as the four-legged.

Follow this trail through the cemeteries, new and very old, through wooded areas and down

to the beach where oftentimes you'll discover a bagpiper playing with the salty wind at his back. The hike takes you near the location of the original church which stood, so it is told, close to the ocean's shore, most likely near to where the pioneer graveyard was unearthed. In the early 1900s the church had burned to the ground.

In 1924 the cornerstone of the new stone church was laid. St. Andrew's Catholic Church, the large stone structured church, is the oldest Catholic parish developed by Highland Scots on Cape Breton Island.

The stones were moved by horse and sled, the beautiful stained glass was donated by parishioner and the Alter of marble came all the way from Italy.

# Buddy MacMaster Fiddle Camp

OCTOBER 9<sup>TH</sup>-13<sup>TH</sup>

Each October the Celtic Music Interpretive Centre welcomes students from all over the world to the Buddy MacMaster Fiddle Camp, a week-long camp offered at the Celtic Music Interpretive Centre during the week of the Celtic Colours International Festival. The camp allows students the chance to study with two Cape Breton fiddlers each day, for a total of ten different instructors over five days, each instructor having their own unique style of Cape Breton fiddle playing.

Classes are aimed at intermediate and advanced players who wish to further their skills and learn the Cape Breton style of playing from some of Cape Breton's most respected fiddlers. During the lunch break each day, students will enjoy a ceilidh featuring the two instructors from that day as well as guest musicians. A jam session, open to all musicians and skill levels, also takes place each day after classes, allowing students to play together along with other musicians who frequently drop in at the sessions.

# PORT HOOD

**Port Hood was first settled by United Empire Loyalists in the 1780s**  
The Scottish migration of the early 1800s brought more settlers, and by 1818 there were 170 people living in the village, one-half of whom were Scottish, the rest Irish or Loyalist.

The community experienced a boom period from 1880 to 1910 as coal mining, fishing and marine trade flourished. An explosion in 1908 closed one of the mines, and the other was flooded and closed in 1911. A devastating fire in July of 1942 wiped out much of the town's business district.

Port Hood (pop. 710) is the fourth-largest community and county seat of Inverness County. The village has stores, restaurants, accommodations, post office, bank, liquor store, service stations and public wharf. There's a beach in town with a picnic area and supervised swimming. Today Port Hood is a service centre for the surrounding farming and fishing communities and is a popular stop for visitors touring the Ceilidh Trail.

A cairn in the village honours native son Sidney Earle Smith (1897-1959) who distinguished himself in the fields of law, education and politics and who was one-time Minister of External Affairs for Canada.

## Port Hood Harbour

*Site of historic confrontation over US, British flags*

Port Hood, shire town of Inverness County, is located along the shore of the Gulf of St. Lawrence, and that ocean atmosphere permeates the small village. Throughout the summer the sandy shorelines, with five stunning beaches, one of which offers lifeguard services through July and August, give residents and visitors alike a refreshing swim.

But Port Hood's beaches are just the beginning of a memorable discovery of this historic village where, during the mid-1800s, hundreds of ships plied their trade in and out of the harbour. Historian John L. MacDougall in his 1921 *History of Inverness County* tells readers that "fifty-five years ago, this writer remembers counting two hundred sail of the fine American and Maritime fishing fleet, riding restfully at anchor in the harbour at Port Hood..."

It may be of interest to American visitors to learn that during this period so many American ships were trading at Port Hood that one merchant violated the protocol regarding national flags, running the Stars and Stripes above that of the then governing nation's flag, the British Union Jack. The British Navy needed to send a warship in to enforce the proper protocol. That once-vibrant harbour vanished with the erosion of a neck of land that linked the mainland village to what is now Port Hood Island, just offshore.

While shipping may have declined, the fisheries thrived, and today, at Murphy's Pond, during lobster season a fleet of local boats lands catches daily. During the summer months, crab fishermen land their quotas daily on Murphy's Wharf, and later in the season when the tuna are running, tuna fleets bring in many of the large fish, most destined for the Japanese market.

**Dr. John Noble (1783-1854)** was the first qualified medical doctor in the area. He and his wife, Julia, who was, never to the town and died in 1823. For the next twenty years, both Dr. Noble and his wife, Julia, served the people of Lunenburg and Port Hood. He was able to provide medical skills to the people and his wife, Julia, assisted in many of the families in the area.

**James Scott (1811-1871)**

By 1823, James Smith and his family were living in Port Hood. He built a store in the village and constructed wharves on water frontage for his shipping needs. He carried a large amount of cargo and he also traded crops. Unfortunately many of his customers ran up huge debts they were unable to repay. Along people who had on hand were lost their property to Mr. Smith who amassed great wealth from the sale of these assets. However, the financial a general of well being around here although there is evidence of generosity upon his part. During the 1840s when potato blight was destroying crops, Mr. James Smith, who represented Inverness County in the Nova Scotia Assembly, petitioned the government for relief funds and supplied goods to farmers from his own stock.

**Robert MacDougall (1825-1874)** moved to Port Hood in 1843 and operated a law office. He remained in the community until 1860 when he moved to Halifax. At about this time, he ran for office, being elected as representative of Inverness County as a Reformist and a Conservative candidate. He served briefly as Director of Nova Scotia at the time of Confederation and was defeated in the next election by the Conservatives.

**George C. Lawrence (1793-1873)** and his wife, Helen Turnbull, moved to Port Hood in 1830. He became Inverness County's first High Sheriff in 1844.

**Robert MacDougall (1811 - 1874)** was a native of Lunenburg and the second Sheriff of Inverness County.

# Port Hood Day Park offers rest, recreation

The Port Hood Day Park may be a welcome opportunity to relax or to explore the bordering shore. Located just as you arrive at Port Hood, the day park gives visitors a chance to rest while taking in the beauty of the setting which includes a fine view of Port Hood Island across the natural harbour between the park and island.

The day park is furnished with covered picnic tables for eating, studying maps or just staring around. ## COME EXPERIENCE MABOU'S KINSHIP PLACE PLAYGROUND

The community of Mabou came together in recent years for a work party and built Kinship Place, a beautiful modern playground on the grounds next to The Mabou Arena/Athletic Centre. The playground was built and named in loving memory of a young mother from the community, Tracey MacDonell-MacDougall (1975-2010).

"The faith, hope and love that Tracey personified in her all-too-brief time with us helped spark a contagious community spirit that has made Kinship Place a reality," says the plaque memorial dedicated to Tracey at Kinship Place.

The playground is a very popular destination in summer when the Mabou Farmers Market is held inside the Mabou Arena.

## MOTHER OF SORROWS SHRINE; A QUIET REFLECTION

People come from all across the globe to visit this sacred site.

The Mother of Sorrows Pioneer Shrine is devoted to Mary, Mother of Sorrows.

The little church was originally built as a memorial to the pioneers of the area and was moved to the man-made hill where it rests today.

The site was dedicated by the Bishop as a shrine to the Mother of Sorrows and to the pioneers who settled the area.

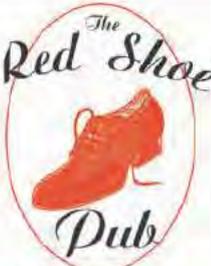

"We remember our pioneers through the love of Celtic music, beginning with the bagpipes and ending with the fiddle," says Shrine board member and municipal councilor Betty Ann MacQuarrie.

Tour busses are a common fixture to the Shrine; they travel from all across North America to visit the historical church, to pray and to pay respects to Mary, Mother of Sorrows.

Two priests sit on the Shrine's board; they are Fr. Angus Morris and Fr. Bernie MacDonald. Other members include Sister Claire Beaton, Board Chair Edgar Cormier, Ken Vacon, Rita MacDonald, Dan Archie Cummings, Marcella Doucet and Betty Ann MacQuarrie.

The Mother of Sorrows Shrine has a tourist centre with a gift shop; they have also reproduced a new brochure this year for visitors coming to the Shrine.

## - Celtic Shores Coastal Trail -

### Mabou Rivers Trail Section

"The trail opens up and meanders alongside the South West Mabou River for several kilometres. This section of the trail is pretty in all seasons, suitable for walking, biking, cross country skiing, and snowmobiling. Some of the meadows adjacent to the trail here were once valuable farmland for numerous homesteads founded on the upland side of the trail. The combination of river, meadows and woodlands makes for an abundance of wildlife and interesting vegetation." *Nadine Hunt*

### West Mabou Beach Provincial Park

Located on Colindale Road, West Mabou, is a natural environment park with public access to a beautiful sandy beach and dune system at the mouth of Mabou Harbour. The park also consists of old farm fields and marshes, with several walking and hiking trails and a picnic

### Cape Mabou Trails

"Using old roads and trails in this area, the Cape Mabou Trail Club has built a well-maintained and well-marked trail system that offers tremendous views and a considerable variety of terrain from easy walks to very strenuous hikes, along coastal trails, up and down the many mountains, and through the forest." - *Victor Maurice Faubert*

## An Drochaid Bridge Across Time

The local museum, *An Drochaid* or Bridge Museum, operated by the Mabou Gaelic and Historical Society, is an active centre, and “bridge” is an aptly chosen name, bridging as it does the past and the present, presenting the vibrancy of the former through narrations and talents of the latter. A visitor to the museum will see a locally made quilt, the work of several women, called “Memories of Mabou” because it depicts the industries of the area in past years and in the present. One should also see the pieces of woven material from the Glendyer Woolen Mills, which were established in 1848 a few miles outside the village.

## CEILIDH ON THE WHARF Mabou Coal Mines

On Sunday, August 13<sup>th</sup>, a ceilidh happens on the Mabou Coal Mines wharf from 1 to 4 pm. Admission - \$10. Come and enjoy an afternoon filled with local talent, boat rides and canteen services.

While the ceilidh itself is a music-filled attraction, it is also one of the most beautiful side drives visitors can take into a stunningly beautiful landscape/seascape.

**To Get There:** Take the Mabou Harbour Road off Route 19 (beside the Mabou museum) and follow the signs. Fun and food and fine music await you at the end.

# The Glenora Inn & Distillery

Home of Glen Breton Rare - North America's 1<sup>st</sup> Single Malt Whisky

## The Glen Breton Toast

So the word is now out for all to see  
A single malt from this side of the sea  
A lowland taste, or a highland smile, or the tang of the sea,  
Like a malt from the isle

These secrets reside in the walls of the cask,  
And those bouquets and flavours are with us at last.  
Ten years in a complex of oak and of smoke,  
Now we reach for the glass, For the cask has awoke

And we'll toast with Glen Breton,  
With more than a dram,  
For the dream of Glenora has captured our land  
From the shores of Cape Breton to our mountainous west

Nestled at the foot of the Mabou Highlands is the Glenora Distillery, a single malt whisky distillery. The distillery offers tours, as well as providing accommodations and fine dining. It is also a popular location for catching some of the County's traditional musicians.

**Overshot Patterns exhibit at School of Crafts**

**A sample of woven scarves**

The main objective of the Scotsville School of Crafts is to perpetuate the traditional Celtic handcrafts while incorporating the most modern methods and techniques.

**The Lake Ainslie tartan**

The Lake Ainslie Weavers and Craft Guild is also compiling a body of documents on all textile weaving in Inverness County. The highlight of its collection is a magnificent exhibit of overshoot samples created by Florence Mackley which is currently on display, courtesy of her niece, Brenda Hart Timmons of Margaree. There are 35 mounted pieces with name plaques in the Mackley exhibit, as well as some framed vintage patterns.

**BLUE** for the water, the sky above and the blueberries that grow/  
**WHITE** for the cross of St. Andrew, the Barite and the snow **GOLD** for the clean sandy beaches and the rising of the sun **RED** for the beautiful sunsets which are second to none.  
**GREEN** for the mountains, spruce and pine, as proud and tall they stand/ And the grass that blows in the wind like waves upon the land.

When settlers came from Europe's shores so many years ago, they brought with them a pride and strength that's not seen anymore. They faced the harsh cold winter storms, had many hungry days. They lived by faith and fear of God and strict religious ways. This TARTAN, that we weave today, pays tribute to the old. The flag they left, the shores they found, this HERITAGE is told.

*Composed in 1985 by  
 Vincent Smith, Allan MacMillan and  
 Verna MacMillan.*

*Designed by Verna MacMillan and registered at the Scottish Tartans Society, in Comrie, Scotland, in 1985 on the occasion of Cape Breton's Bicentennial.*

### LAKESIDE IMPRESSIONS School of Crafts hosts workshops during Celtic Colours

There's more than the weaving of colours into clan tartans going on at the Scotsville School of Crafts once the leaves of summer change into their autumn. The school becomes part of the Celtic Colours International Music Festival, taking place this year October 7<sup>th</sup>-15<sup>th</sup>.

While nightly concerts are performed across Cape Breton, throughout the day the island is alive with workshops and demonstrations, and the Scotsville School of Crafts is one of the centrepieces of this activity.

Find their schedule of events in the Celtic Colours guide or log on to the school's website: [www.scotsvilleschoolofcrafts.ca/](http://www.scotsvilleschoolofcrafts.ca/) and you will find yourself making pleasant choices.

Each October, the Scotsville School features an exhibit of arts and crafts that range from fine paintings to weaving woven to awe. Each day during Celtic Colours the exhibit is open to visitors.

Also, each day offers a new Celtic experience such as weaving demonstrations, hands-on spinning demonstrations, Celtic walks with a distinctive Gaelic accent, square dancing lessons, a milling frolic, painting workshops and much more.

# WHYCOCOMAGH

Whycomomagh is a hub for the rest of Cape Breton.

It has three restaurants, motels, markets, businesses, a wharf, a beautiful waterfront centre, a school and two churches.

Whycomomagh is an hour and a half to any major Cape Breton attractions.

Surrounding Whycomomagh are hiking trails that take you into its mountains and this trail, part of the Trans Canada Trail slated for completion in 2017, also includes the Blue Wave

which is the water-trail which was every bit as important as the land trails to our pioneers.

In the summer, there is always something happening. The inland sea (Bras d'Or) must be part of the Musical Coastline."

The Race for the Cape run may make Whycomomagh part of its tour in 2018.

The "hidden gem" of Whycomomagh is its park which runs up in the mountain and across the road down to the lake.

It is one of the most beautiful campgrounds anywhere, open, clean and surrounded by the beauties of nature.

Summer in Whycomomagh is topped off by the Whycomomagh Summer Festival, a week of family, fun activities that has music, culture and fun for everyone who loves to enjoy spending time with a welcoming people and visitors looking for a peaceful way of life.

If you want to kick up your heels there is a fiddle and a dance

close by. The season in which we welcome visitors culminates in Whycomomagh during Celtic Colors in October where there are cultural workshops and one of the best Celtic concerts you'll ever attend.

Whether it is the mountains, the lake or Celtic Quay, Whycomomagh has something unique to offer our summer and fall visitors.

If you hang around long enough you can enjoy Christmas in the Village, another festival not to be missed.

The Waycobah community members enjoy a long history of pride in their heritage, while keeping pace with the challenges of the present. Today's Waycobah is a thriving community with a state-of-the-art school and health centre, private businesses that cater to Cape Breton Island tourists and local residents, and a vibrant cultural environment.

The Mi'kmaq continue to preserve their culture and the ways of their ancestors. This tradition can be seen in their leather work, intricate basket weaving, and beautiful beadwork.

Tradition is also kept alive through legends like that of the Mi'kmaq hero, Glooscap who, the story is told, climbed to the top of Salt Mountain to survey his domain and oversee his people. He saw that his enemy, Beaver, was causing trouble amongst the tribe below.

# ORANGEDALE

## THE ORANGEDALE STATION

The Orangedale Station is the only remaining one of the Intercolonial Railway Stations on its original building sites built on Cape Breton Island and has been meticulously restored and preserved in mint condition.

This station served a very large rural area and in the early years people came from miles around in their horse-drawn wagons or sleighs, or by foot to catch the train. In its heyday (1930s to 1950s), this station was served by six passenger trains (three in each direction) and up to twenty freight trains daily. This station was also a busy shipping point for lumber, oysters, pit props, Christmas trees and other local products. Incoming carloads included flour, feed, gasoline, western horses, automobiles, machinery, and various shipments of merchandise for the local stores.

## THE ARK STORE

Many locals and passersby learn about L'Arche Works at The Ark Store in Iron Mines, Cape Breton. Good quality used clothing, inspirational books, local and Nova Scotia crafts, and crafts made at their workshop are sold here. Several core members are employed at the store, and they are kept very busy.

The Ark is located just off the Trans Canada Highway at Exit 4, Orangedale. We are open Monday to Friday, 9 am to 3 pm and Saturday 10 am to 5 pm.

# INVERNESS

## A TOUR OF INVERNESS

Hello and welcome!

If you have your walking shoes on (there's nowhere you can't walk to if you want to give your car a rest).

I'm going to take you up Forest Street first to the harness racing track.

Long before we had golf courses, Inverness Raceway had been the main attraction in Inverness. The first races were held in 1926 and 90 years later it's still going strong every Wednesday night under the lights and on Sunday afternoons.

Behind the barns and stretching the length of the town are a series of trails and old roads that once connected a number of bootleg coal mines. It's a great place to let your dog run off leash, and while it's difficult to get

lost, you might want to have someone from the area go with you just to prevent you from walking in circles.

Heading downtown to the boardwalk, you'll see some of the fairways and greens of Cabot Links. And the wharf where you can buy freshly-caught lobsters from the men and women who catch them throughout May and June. And if you're here for Gathering Week during the fourth week of July, you can get on a boat for a free ride during the Fishermen's Picnic boat parade!

I might be a little biased, but this is the best beach in the world. The water's so warm, and I suggest coming back in the evening just as the sun is setting. The sunsets can be stunning.

Heading back up town we pass by the Miner's Museum on the left where the old railway station used to be. Check out all the great artifacts and displays outlining the history of Inverness.

Passing the Miners Museum we come upon Mill Road Social Enterprises, which has a bakery, (the smell of baking alone will draw you in), as well as a thrift store, and a village market.

At the end of town we have the Inverness County Centre for the Arts where we display the work of our many talented artists, as well as yoga classes, workshops, musical events and a gift shop.

Once summer is in full swing, our seasonal eateries are open as well as the year round restaurants. Every

restaurant usually has a seafood chowder on its menu, so you might want to visit them all to find your favourite!

Feel free to take in all that the town has to offer: golf a round in the morning; pack a picnic for the beach in the afternoon; take a walk, check out our restaurants for dinner; take in the many musical events that take place throughout the summer.

## CABOT LINKS

We're number one and we're also number two.

*The Canadian Golf Magazine* announced its golf course rating in its April issue and the two Cabot courses placed one and two.

Of Cabot Links it says:

*"The site and philosophy, both myself and Ben, we were on the same page trying to return back to the true roots of golf," says Rod Whitman, golf course architect of Cabot Links, as he refers to the common objective between him and Cabot Links mastermind Ben Cowan-Dewar.*

*Opened in 2012, Cabot Links has catapulted up the ranks of our Top 50 course ranking. And despite some stiff competition from its sister course down the road, our raters have once again named it the best golf course*

*you can play in all the nation. For those who have had the opportunity to visit, it comes as no surprise.*

*Cabot Links is a special blend of small town east coast charm and wild, seaside links. The course always had big shoes to fill, located a mere two hours away from iconic Highlands Links, but it has lived up to the hype and then some.*

*Cabot Cliffs features some world class stunners, like the cliff side par-3 16<sup>th</sup> and par-4 17<sup>th</sup>, both unique in their own right. But the inland holes are just as good as the more dramatic cliff side holes with the par-4 2<sup>nd</sup> and par-4 13<sup>th</sup> being especially noteworthy.*

*Finally, Cabot Cliffs has a distinct Cape Breton feel that you just can't find anywhere else, and that's what makes it so special.*

## An Eagle Eye's view is the best

Gliding on the surface of a calm ocean at sunset is an experience that should top everyone's bucket list.

Eagle Eye Outfitters offers customized tours, wilderness camping, sport fishing, mountain bike rentals, boat and whale tours, kayak and rental tours. Conrad MacNeil is the Captain of *Seas the Breeze*, which accommodates twelve people, with great seating and also a picnic table/umbrella set.

Cruising along in a fishing boat with style, it only takes *Seas the Breeze* about 30 to 40 minutes to get to Margaree Island – or Sea Wolf Island. “I will take people anywhere they want to go, and if you don't know where to go I'll show

you. There are tours for everyone, for all types of people, young and old, those who have plenty of experience on the water and those who have no experience.” He explains that “different tour types include an early morning deep-sea fishing tour from 6:00 a.m. to 9:00 a.m. We also offer two tours happening daily at 11:00 a.m. and another at 2:00 p.m., both tours lasting roughly 2.5 hours. The daily tours can be directed towards families, and children of all ages are welcome and safe.”

“If you want to explore Margaree Island or the shores of Cape Breton I can take you or a group out with the kayaks, to the island or wherever you want to go.”

# A Forest for Calum launched in Inverness

The official opening and launch of the planting of the first tree for the Inverness County Centre for the Arts new Forest for Calum took place in May 2017. Frances MacEachen, of Gaelic Affairs Nova Scotia, noted that at least one third of the population of Nova Scotia can trace their lineage to Gaelic roots.

Named after the celebrated book by the same name by Inverness poet, playwright, novelist, and columnist, Frank Macdonald, the project revolves around the planting of a Gaelic forest and poem at the Arts Centre.

Frank Macdonald noted that the story told in the novel took much of his lifetime to fully envision. "I was 12 years old when I heard a story from my father that really stuck with me - one he heard from his father - that each letter in the Gaelic alphabet

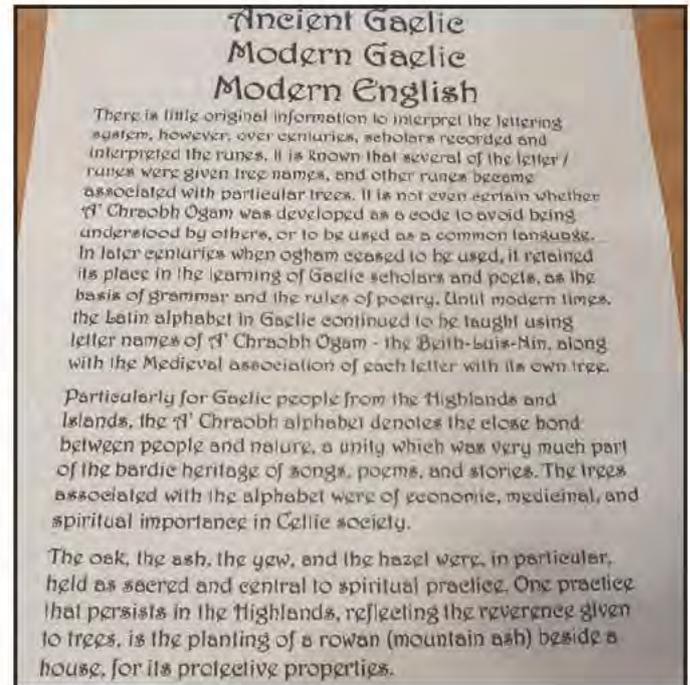

was represented by a tree," said Macdonald.

"I was in my 30s when the idea of planting a poem came to me, in my 40s when I attended the Banff Arts Centre School of Creative Writing when I had the idea for the novel and it took me another 20 or so years to write the book and get it published. I had always wondered whether that story from my father was something I could find historic references for, so I asked around and I finally took a drive to Mabou to speak with one of the people I believed would know, Gaelic teacher and scholar, Effie Rankin. I asked her if she had ever heard of this and she confirmed it for me. Then Caroline Cameron of Strathlorne, board member of Inverness County Centre for the Arts, stepped in and the idea hasn't faltered for a

minute after that," Macdonald added.

Caroline Cameron and Frances MacEachen noted

the importance of the Gaelic phrase: "Cuimhn Air Na Daoine Bho 'n D'Thainig Sibh," - "Remember the

people from whom you came.” What a fitting phrase for the planting of the Forest for Calum.

It’s been 21 years since May was established as Gaelic Month in Nova Scotia and already 12 years now since the release of Frank Macdonald’s book, *A Forest for Calum*. Great ideas often come to fruition even if they sometimes take time. John William “Tiny” Cremo, We’koqma’q offered a smudging ceremony, and noted, the trees are to be honoured, appreciated, the trees will outlive us and they will remain if we cherish them. The Gaels and the First Nations peoples both understood the value of trees, of the forests, to our spiritual nourishment and to our very survival – something we no longer always appreciate.

*A Forest for Calum* envisions a poem written in trees and the leaves of those trees. With this project the

Inverness County Centre for the Arts may soon become the site of a great living poem – a destination for tourists and local people alike, and a valuable lesson and reminder of the appreciation of and reverence for the natural world.

Frank Macdonald and John William Cremo planted the first tree, the first letter of the phrase – a “C,” the hazel, sacred to poets and thought to have powers in dowsing for water. An exciting start to the realization of a dream – what may soon become The Forest for Calum!

## Free music festival and free movie nights at the Banks Schoolhouse

*"It's not about dollars and cents; it's about connecting with people on a human level."*

- Michael Dismatsek

Up on the Banks Road in Inverness, beautiful things are happening at a great price: free.

"I don't think that everything today should come with a price tag attached," said Michael Nikas Dismatsek.

Dismatsek found this part of the island through his wife Winnie. Winnie Quinn comes from the O'Connor family from the corner.

Michael was born in Greece and said that this island very much reminded him of life growing up in the Mediterranean.

"The ocean, the people, the unpredictable weather and the rough terrain, I have a great respect for people who can make it in such conditions," said Michael.

Michael started throwing outdoor summer events such as concerts, jam sessions, selling ice cream or popcorn or playing feature films for families under stars.

For years, he and his family have been adding to their property and have been giving back to people who live or visit here.

The family is outgoing

and community minded and they have breathed some new life into that neck of the woods. They've also added another new venue for families and fun.

The free music festival they put on annually is now entering its 7<sup>th</sup> year this summer.

The free outdoor concert and free movie nights are seen as opportunities to

# The 61<sup>st</sup> Annual Broad Cove Scottish Concert to celebrate cultural diversity and Canada 150

Always held on the last Sunday afternoon in July, The Broad Cove Scottish Concert is one not to be missed, and that is especially true this year.

This year's concert takes place on July 30<sup>th</sup> and it will be the 61<sup>st</sup> annual concert which will feature a fabulous line-up celebrating Canada's 150 anniversary on a brand new stage which also includes a new talent room!

Crews were hard at work last year readying the new facility for the 2017 concert with final cosmetic changes being made in the early part of this summer.

"We plan to celebrate not only our rich Scottish culture at this year's concert but the contributions of our

First Nations, Acadian and Irish communities," concert organizing chair Clare MacQuarrie said recently.

Each year the Broad Cove Concert has always featured both established and up and coming artists.

Special guests this year include the *We'koqma'qewlswa* Drum Group, *La Swing du Suête* dance troupe from Cheticamp, Jim Payne and Fergus O'Byrne, Nathan Rogers and Ashley MacIsaac (with special guest pianist, Joey Beaton).

Previous years have seen such established artists as Natalie MacMaster, Gordie Sampson, The Rankins, Lahey Family, *Còig*, The Barra MacNeils, Buddy MacMaster, Bruce Guthro,

Dave MacIsaac and J.P. Cormier take to the Broad Cove Concert stage.

The Broad Cove Concert will start at 3:00 p.m. and will run until 9:00 p.m.

Other confirmed guests for 2017 include: Shelly Campbell, Ian MacDougall, Kinnon and Betty Beaton, Rodney MacDonald, Kenneth and Marion

# THE MARGAREES

## 6<sup>th</sup> Annual Margaree Highland Games August 11<sup>th</sup>-13<sup>th</sup>

The popularity of the Margaree Highland Games keeps growing. Competitors come from across the Maritimes to toss the caber, throw the hammer, the various stones, and challenge each other to the spectrum of Highland contests of strength and power. This will include both Junior and Senior competitors. The Margaree Highland Games is a day of challenges that will culminate with a tug-of-war where teams from across Inverness County vie for the joy of pulling the opposing team across the line, proclaiming them victors of the 2017 Highland Games.

The 6<sup>th</sup> Annual Margaree Highland Games will be held on the grounds of St. Michael's Parish Church at 1181 East Margaree Road.

This year, as a prelude to Sunday's feats of strength, organizers are building anticipation with a variety concert on Friday, August 11<sup>th</sup> and with a series of activities on Saturday, August 12<sup>th</sup>. This will include an even-split bingo, a traditional Acadian frico supper, all leading up to a dance in the evening. Sunday, on the grounds, there will also be horse rides, races and a 5 km run, canteen services and a beer garden.

# CANADA DAY LITERARY FESTIVAL: A Canada 150 Birthday Bash

You are invited to visit Margaree, Cape Breton Island on July 1<sup>st</sup>, and join many others in celebrating Canada's 150<sup>th</sup> birthday.

It all takes place at The Coady Tompkins Library & grounds located on the famous Cabot Trail, one of the world's most scenic destinations. The library is also situated on the banks of the Margaree Heritage River, Cape Breton's largest watershed flowing from the Highlands to the Gulf of Saint Lawrence. The day's events will be packed with music, readings, food, and film. The festival starts at 2 p.m.

Ian Brown, well-known Canadian journalist with *The Globe and Mail*, will read from his novel *The Boy in the Moon: A Father's Search for his Disabled Son*. Recently he completed *Sixty*, in which he explores his response to turning 60, an event he describes as "the beginning of the end 'or' the end of the beginning."

His wife Johanna Schneller, freelance journalist, screenwriter and film critic for *The Globe and Mail*, will share some of her experiences interviewing the rich and the famous.

Donna Morrissey, born and raised in Newfoundland, will be returning to our Margaree event. She has written six nationally best-selling novels. She has been nominated and short-listed for many awards, including the Commonwealth

Joining this notable line-up of authors, and offering a musical interlude, Scott MacMillan will perform. Scott is a musical powerhouse; he is musician, composer, arranger and conductor. He performs jazz, Celtic and blues. Brian Doyle, guitarist extraordinaire, will perform alongside Scott. He too plays and records blues, rock and jazz.

Mary Lynk, writer, CBC journalist, broadcaster and most recently producer of *Ideas*, a long running scholarly radio documentary, will once again host the afternoon show.

There will be an opportunity to meet the authors and musicians, and to enjoy tasty finger foods, Canada Day Cake, and beverages on the grounds of the library.

At 7 p.m. the documentary film *The Green Interviews* will be shown in the library. Silver Donald Cameron has co-written and co-produced this documentary film. You will meet a remarkable group of international leaders, thinkers, and

# Les Trois Pignons offers visitors an opportunity to learn Acadian rug hooking

At Les Trois Pignons, the Acadian cultural centre in Cheticamp, visitors this year have an opportunity to practice an Acadian heritage skill that continues, after 200 years, to produce the vibrant colours, pastoral scenes and floral bouquets that have elevated Acadian rug hooking to an art.

Signing up at Les Trois Pignons, participants will spend two hours in the company of Acadian rug hookers or those knowledgeable about that traditional craft. The package includes a two-hour workshop on rug hooking, a tour of the Elizabeth LeFort Gallery.

Beginning Rug Hookers will have a kit they can bring home with them. For some participants there is another appealing option. If they are unable to complete their piece of work, you can ask to have it remain there and be completed by one of Cheticamp's gifted rug hookers, then shipped home to you.

Interested? Contact Les Trois Pignons at: [lestroispignons@ns.sympatico.ca](mailto:lestroispignons@ns.sympatico.ca) or phone 902-224-2642. If you are visiting Les Trois Pignons for a workshop or out of interest, this cultural centre has plenty to offer.

## The Elizabeth LeFort Gallery

Elizabeth LeFort learned to hook rugs at a very young age, mastering landscapes and photographic reproductions, and has been hailed as "an artist in wool."

Elizabeth was so skillful at reproducing photographs that she began to create portraits in wool. Her portrait of American president Dwight Eisenhower was presented to him at the White House in 1957. This was followed with a series of portraits

including Queen Elizabeth II, Pope Pius XII, Pope John XXIII, Jacqueline Kennedy, President Lyndon Johnson, Prime Ministers Lester Pearson and John Diefenbaker, and Prince Charles. Consequently, her art has graced Buckingham

Palace, the White House and Vatican City in Rome.

Always striving for more challenges, she completed a series of reproductions of religious paintings, including daVinci's The Last Supper, and scenes from the life of Jesus.

Two large original works depicting important events in the history of Canada and the United States leave no doubt as to her sense of design and her mastery of the craft.

Elizabeth LeFort, Chéticamp's most famous artist in wool, was awarded an honorary doctorate by Université de Moncton in 1975 and was made a member of the Order of Canada in 1987.

## Marguerite Gallant Museum

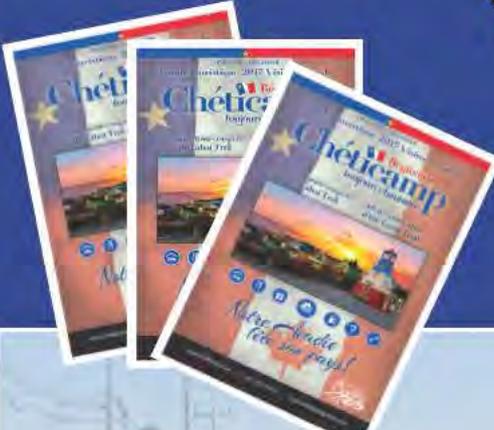

Marguerite Gallant (1890-1983) was a native of Chéticamp with a profound love of collecting. She worked in Pennsylvania for many years as a maid for the Edward Cahill family. It is said that she learned the value of collecting from Mr. Cahill who was an ardent collector.

When she returned to Chéticamp in 1938, Marguerite moved

into a tiny house which she filled with objects of all kinds. As Marguerite's reputation for collecting spread through the community, people brought objects to her rather than let them be thrown away.

After Marguerite's death, La Société Saint-Pierre became custodians of the collection and moved it to Les Trois Pignons. Thanks to this incurable collector, many valuable artifacts from Chéticamp's history have been preserved.

# The Père Charles Aucoin Genealogy Centre

When Father Charles Aucoin (1911-1999) retired in 1973, the beneficiary of that retirement was Chéticamp. For the next quarter of a century, the Chéticamp native threw himself into a labour of love, undertaking the laborious task of transcribing by hand all the old church records from 200 years of Acadian settlement in northern Inverness County. Father Aucoin prepared more than 100,000 personal file cards. He also wrote a number of articles on Acadian life and history.

The results of his work are of particular help to former Chéticamp people and their descendants who return to the village in search of information about their ancestors and

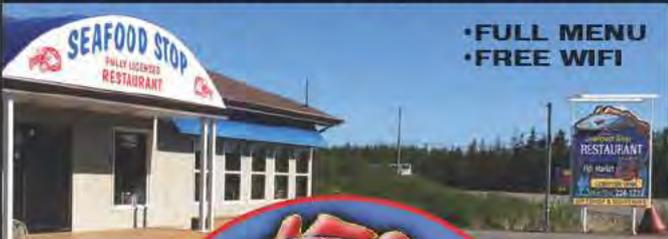

family history. A very important department at *Les Trois Pignons* is that of the history and genealogy of the Chéticantins. Under the able direction of volunteers Jean-Doris (à Joe à Joe) LeBlanc and Charles D. (à Freddie à Damien) Roach, there is accumulated here all possible documentation on these subjects: books, copies of parish registers, census lists, listing of names from all the headstones in the cemetery and old photographs.

## ~ GAMPO ABBEY - An oasis of peace ~

Work started in the summer of 1999 on a *stupa* at Gampo Abbey that contains relics of the Vidyadhara Chogyam Trungpa Rinpoche. It is the first *stupa* built in Nova Scotia. Ven. Thrangu Rinpoche, Abbot of Gampo Abbey, requested in 1996 that the stupa be built. The project had the strong support of Sakyong Mipham Rinpoche and fulfills the Vidyadhara's request that his relics be distributed between RMSC, Karme Choling and Gampo Abbey. Thrangu Rinpoche consecrated the completed stupa in 2001.

An Annual Canada Day Softball Game is held between the saffron-robed monks and nuns of Gampo Abbey and the fire-fighting clad members of the Pleasant Bay Volunteer Fire Department, a fund-raiser for the PBVFD.

According to Rinpoche, a *stupa*

traditionally represents the mind of the Buddha and has the power to convey the mind transmission to those who gaze at it. The *stupa*, he said, is dedicated to world peace, and will become a tourist attraction that will bring many people to the spiritual path. To symbolize the overcoming of aggression, Rinpoche buried weapons in the ground below where the *stupa* was built, including a World War I rifle donated by a Cape Breton neighbour of the Abbey, and he consecrated the site.

*Come take a guided tour of Gampo Abbey! The Abbey is once again offering guided tours this summer. See the shrine room where we practice, visit our library with over 5,000 books on Buddhism and religion, learn about our lineage and activities, and get a glimpse into the life of the monastics and lay residents living at Gampo Abbey.*

**Tours are offered Monday through Friday, at two times: 1:30 pm and 2:30 pm**

**MEAT COVE - A Wonderful Camping Experience**

Meat Cove is the most northern tip of Cape Breton Island. Its campsite offers beauty, hiking, and the thrill of unpredictable weather patterns. An inspiring place to watch a sunrise.

The village is known for the spectacular views it provides for visitors from across the world, and also for The Meat Cove Campground and Ocean Side Chowder Hut.

The Meat Cove Campground opened in 1986 and is hosted by the MacLellan family. The campground provides people with spacious room for their tents, thirty unserviced campsites, newly built camp cabins, running water, hot showers, beautiful hiking trails mainly all with ocean view.

Kayaks can be rented to paddle along the coast. Or you can just sit at your picnic table and watch the whales glide past!

Cook on an open fire or visit at the Ocean Side Chowder Hut. Here you will find some main dishes such as homemade seafood chowder, fresh halibut, salmon or lobster and crab. Complement these dishes with a Nova Scotian beer or a local red or white wine.

**HIKING**

Meat Cove is widely known for all its wonderful hiking trails. It offers a variety of trails that will not disappoint you, all with amazing views that you will not forget. Be sure to bring your camera to capture the scenes on film.

**CAPE ST. LAWRENCE TRAIL**

Trail length 5 km one way, maximum elevation 850 ft. This Trail starts by the office at the Meat Cove Community Centre/Restaurant (check with the office if you plan to leave your vehicle near here) on the gravel road and changes to a narrow track after 150 meters and proceeds up the hill. This is by far the steepest and most challenging part of the hike. In the first kilometer you will climb nearly 700 feet and pass by a wooden gate and the sign for the Meat Cove Look Off trail to your left. By the time you reach a meadow and corral to your right most of the climbing is finished. About 2 kilometers from the start you will see the side trail to Cape St. Lawrence to your right. As of July, 2009 this was well marked with flagging tape on both sides. It's the first trail to your right past the meadows of any size and suitable for an ATV or horse and cart originally. The rest of the hike is an easy 3 km proceeding gradually downhill except for one short steep section. Be sure to check the look-off at the top of this section just past Big Pond.

**LOWLANDS COVE TRAIL**

Is 5 km to the coast from the Cape St. Lawrence turn-off or 7 km from the Meat Cove Community Centre/Restaurant. Instead of taking the Cape St. Lawrence turn-off at the 2 km mark, keep straight on. After another kilometer you will see the Polletts Cove turn-off to your left; after about another kilometer you should see the disused road and trail to the abandoned zinc mine (1.5 km); another 0.75 km takes you to an abandoned farm. All that remains is a clearing and some farm implements. The trail proceeds gradually down to the coast. The topographic map indicates a side trail to Lowlands Cove Brook starting 0.7 km from the coast. I was day-dreaming and totally missed this turn-off. Judging by the stunning scenery it would be worth locating.

**LOWLANDS COVE COASTAL TRAIL**

Is 3.2 km coastal trail. Just keep a safe distance from the cliff edge and follow ATV and animal tracks along the coast. If proceeding from Lowlands Cove, the Cape St. Lawrence Light and start of the trail to Meat Cove is easy to find. Proceeding the other way to Lowland Cove, be on the look-out for the trail just before the grassy area changes to a wooden area as Lowlands Brook is approached. Steel posts painted red can be found throughout the Lowlands. There are a couple located close to where the trail starts inland.

**MEAT COVE MOUNTAIN TRAIL**

Is 1.3 km to eastern end of ridge. This trail starts a short distance up the road from the Internet Café and is marked by a sign on a tree and a few stones placed to form steps. The trail climbs steeply nearly 900 feet in the first 0.75 km and then levels off somewhat. The grassy ridge of the mountain extends over a kilometer with fantastic views in all directions.

**RIVER BOARD WALK TRAIL**

This pleasant boardwalk trail extends nearly a kilometer from the Internet Café to the beach.
